New Launch: **Truenat™ COVID-19**

Chip-based Real Time Duplex PCR Test for COVID -19

Molbio Diagnostics Private Limited, announces the launch of new chip-based real time Duplex PCR test **Truenat™ COVID-19**. This is a test for the semi quantitative detection of SARS CoV-2 RNA in human oropharyngeal and nasopharyngeal swab specimen and aids in detection and confirmation of SARS CoV-2 infection and diagnosis of COVID-19. The test detects the *E* and *Orf1a* genes of the virus.

The graphic features a stylized DNA double helix in the top left corner. The title 'Truenat™ COVID-19' is prominently displayed in the upper right. Below the title, a red horizontal bar separates it from the main content area. On the left, the text 'Rapid, Point-of-Care Duplex RT-PCR Test for COVID -19' is written in bold. In the center, there is an image of a small green microchip with gold pins. To the right of the chip is a detailed illustration of a coronavirus particle. At the bottom left, the words 'Innovation' and 'Impact' are written in a serif font, separated by a stylized DNA double helix icon. A red horizontal bar is positioned above the bottom text. In the bottom right corner, there is another stylized DNA double helix graphic.

Truenat™ COVID-19

**Rapid, Point-of-Care
Duplex RT-PCR Test
for COVID -19**

Innovation  *Impact*
