

# Empowering Precision Healthcare Through Digital Pathology Solutions

OptraScan is a pioneer in the realm of digital pathology, committed to revolutionizing medical diagnostics through cutting-edge technology. With a relentless focus on innovation and quality, OptraScan provides healthcare professionals with advanced tools and solutions to enhance diagnostic accuracy and patient care.

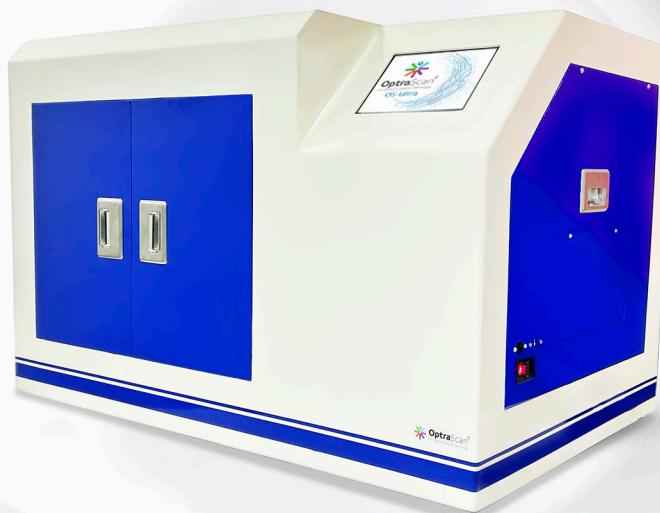

# Unleash the Power of Precision Imaging

From compact solutions ideal for low-volume scanning to high-throughput systems suited for large institutions, each scanner embodies superior image quality, efficiency, and reliability. Experience seamless digitization of pathology slides with OptraScan's state-of-the-art scanner models.

## OS-SiX

6 slide compact and portable scanner for small-scale operations

## OS-Ultra

80-480 slide high throughput scanner for large-scale pathology labs

## OS-Lite

15 slide mid-range scanner offering versatility and efficiency

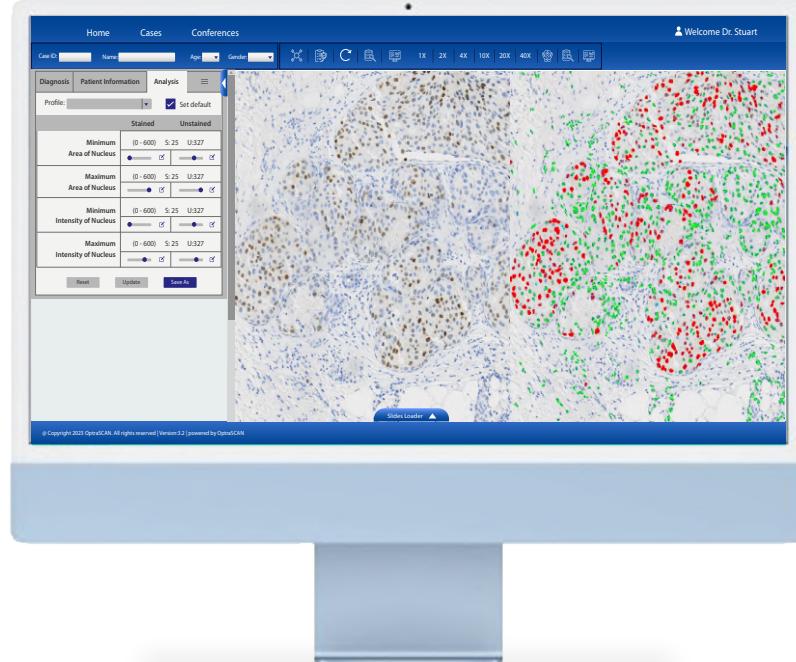

## OS-FL/FLi

15 slide specialized scanner for fluorescence imaging

# Elevating Pathology Practice to New Heights

OptraScan's integrated software, analytics, and telepathology solutions empower pathologists with unparalleled capabilities for diagnosis, collaboration, and decision-making.

Cloud-based platforms for secure data storage and sharing

Integration with machine learning algorithms for advanced analytics

Seamless integration with existing laboratory information systems (LIS)

Customizable workflows to suit individual preferences

# Transforming Healthcare Worldwide, One Scan at a Time

OptraScan's impact extends across the globe, serving healthcare institutions, laboratories, and professionals in diverse regions. With a presence in 30+ countries and a growing network of satisfied customers, OptraScan is committed to democratizing access to advanced pathology solutions, driving positive outcomes for patients and healthcare providers worldwide.
